

Microphone

The Shure SM58 microphone is a wired microphone for use with a powered speaker. The microphone is kept in a case in the Lynn Valley server room.

Using the Microphone

1. Plug the 3 pin audio connector cable in to the microphone.
2. Plug the other end of the 3 pin audio connector cable into the appropriate input port on the speaker (e.g., "Ch 2 Mic In" port on the back of the Yorkville powered speaker (see the *Lynn Valley Microphone / Powered Speaker Setup Instructions*). Note that there are two 3 pin audio connectors that can be strung together for extra length.
3. Turn on the microphone using the switch on the side of the microphone.
4. Test the audio volume.
