

Projector Setup for Capilano Branch

Capilano Projector Instructions

1. Obtain and unpack branch laptop. The following items should be in the laptop bag:
 - i. Laptop
 - ii. Power cord
 - iii. Possibly network cable and mouse
1. Power on projector and laptop. The remote to power on the projector should be found on the podium in the programming room. You should also find a black VGA cord and 1/8 inch audio cord inside a blue box within the podium.

Plug one end of the VGA cord and (if necessary) audio cord into computer, and the other ends into the wall.

You may optionally also want to plug in a network cable if Wi-Fi is unavailable or signal strength is insufficient:
